Yu Ke: My appointment will start now. I will send you a text once done. 4:05 PM

Me: Bravo ChinUp! Shoulders relax.:) 4:06 PM

Yu Ke: Michael, I need you to write me a letter right now retracting what you said on the letter you sent about Tom. It is imperative that you write now and send it to me. 5:03 PM

Yu Ke: You have write that what you wrote there you did not mean it, say that you were tired and and are retracting from every word 5:04 PM

Me: Hunting for phone found it 5:05 PM

Yu Ke: I will be waiting for the letter ASAP. 5:05 PM

Yu Ke: Within an hour. 5:07 PM

Me: I wrote that letter spontaneously I could write it a million times again. I've never taken Benadryl and ideally writing that letter cause me to think less about the contents or its Dilemma. I'll be happy to retract my personable vote of confidence. Rather to say I've misheard you...but what the hell is going on. I'm abstract "This Note or Text is indoctrinating". A source for its interpretation is nothing near my ascertainment let alone it's content or C.O.N.T.E.X.T: & far worst its allusiveness conclusive to a specific timeline. This understanding is pending a conference Timeline. Hold-On! 5:17 PM

Me: For the sakes all above rhetorics damning, confusing or impulsively stupendous - I'll further ad (not an FYI) if matters (A) matter concerning Mr.T. Of certain he'll be confident that by nature of principle I'm offering my Vote of Confidence - he'd better off figuring that out As Man. That said? Thank you & I'll be moving on with my day. 5:22 PM

Yu Ke: Michael, I beg you. Please write a short letter retracting from what you said. 7:24 PM

Me: FYI: A.If a therapist waited until an appointment to confront you on a note you incorrectly forwarded to her by email? Thumbs Down B. If a therapist ask to you to ask an otherwise anonymity to rescind that note? 10-Thumbs Down. By doing so? That therapist is forcing you to admit "You're the writer of that Note". The therapist may conclude its all you and I am just a tantrum personality. Like you have a split personality. As I've informed you friends I know are owners of a reputable well established therapy institute. You're hurting me very badly. I've no doubt this is reason for not calling, taking calls or all of the above. It's painful - just so you'd know. I'm hurting. 12:18 AM

Me: No problem I will download it from guru Ok So I'm back in NYC. Thanks for everything. I'm planning a draft of a Content Overhaul for my network including some websites I own. Each formatted websites will need its own intro sort of like press press release. I'm currently preparing the work order list. Once I'm through in a few hours I will submit with an initial deposit \$200 PayPal or guru. You'll use over the weekend up to next Thursday to prepare all the content and bill me any remaining balance. I loved your work you seamed spontaneous and articulations meet with each criteria uniquely. So this is not specific to press releases but a slight variation to product or web or the service intro or content overview. Essentially (tipsonly.com or famousnewyorker.com or TekCtek.com) all content needs revamping. So essentially its basically a read-over. I hope you get it. Have a great day & honestly? Do you see Ive taken all the emotional alternatives I've know without directing an anger or hate supredipitously to you?

Good morning Carolina,  
I don't know why you cut me off  
the way you did. Or maybe I'm  
naive and stupid.

For certain the ways you cut me  
of is carefully assorted.

I've kicked & Ive restled with  
grief as I wish upon no one.

If this is good news text to you  
then I'm even more baffled.

I'm crazy, I'm mad, I'm distort,  
trouble, confused, anemic,  
dismayed, overwhelmed, hurt  
and whole myself harmful of my  
everyday existence.

You have help with taking me  
over that cliff. You offered no  
reasonable explanation as only I  
have is a letter -which was no  
empathy and in it you

acknowledge a payment due or  
balance of some sort of \$5,000  
loan Quote; "Yet to be repaid".

I accept responsibility for my  
demeanors but I'm not an  
alcoholic nor am I sufficiently

Hi you're 20 years old and a young woman whom I think would understand the importance of her mothers happiness.

I fell in love with Carolina through dancing with her and we had an affair and right now I'm afraid she's blaming herself and perhaps me or her love for dance for ruining her life. Chances are she's afraid because of this it might affect your college program and the pleasantries of your early life as an ambitious peculiar young woman who means the world to her.

I know your mother fell out of love with Mr. Gildred because she told me so and why months ago while she was in NYC.

In many ways I knew her in a social way for closer or over 15 years.

She your mother knows how much I'm the kindest man, with a big heart. I only want the best for herself and her family.

Take care of your mother and shower her with attention now more than ever because she loves you so much you would have to become 40 to truly understand.

Please don't accept my friend request - if any at all you can friend me at the following fb link but I would not like Carolina to know that I've shared this personal information with you.

PS: by the way your FB needs additional security alert learn my from Twitter my follow is #Fostersnet

Bryant's FB is a bit more secure🔔 so b careful DiAna & focus. Your mother may have said to you I'm 45 never hand a glass alcohol in my life. None!
